Sensorik

Your Bavarian Network for Smart Sensor Technologies and Reliable Electronic Systems

Networked Value Creation

From the sensor to the cloud –
your bridge to a broad ecosystem

Cross-Sector Synergies

From regional to international –
your bridge to new industries and markets

Personalized Support

From idea to project –
your bridge to technological expertise, talent and R&D
resources, including scouting at preferential rates

Wirtschaft, Landesentwicklung und Energie

Why Become a Member?

For 20 years, we have been the network for technology-oriented companies in Bavaria that develop or use sensor-based systems and want to reach marketable solutions, new customers, and funding more quickly.

We connect companies, research, politics and people on a personal level – and accelerate the journey, from innovation to application across sectors.

Curated B2B Matching & Partner Scouting

Tailored search for and outreach to suitable R&D partners, pilot customers and suppliers within our ecosystem.

Expert Forums, Technology Sprints & Training

Practical workshops, seminars, and specialist forums on specific sensor applications; comprehensive training program.

International Markets & Visibility

Joint trade fair appearances, delegation trips, public relations. Exchange with chambers of commerce and political stakeholders worldwide.

Funding Acquisition: EU • Federal Government • State

Advice and support with grant applications.

Current events
