Sensor Technology – Driving Force for Future Technologies

Solution approaches in all fields of digital transformation and for a smart expansion of our living and working environments are based on data supplied by sensors and evaluated by measurement technology.

Smart sensors enable new datadriven business models and services.

Bavaria is one of the leading locations in this industrial sector worldwide.

Our Members – Our Focus

In our network, we pool the expertise of more than 90 globally leading companies and institutions – in their capacity as outstanding technology partners, they drive the development of intelligent sensor systems „made in Bavaria“.

- Intelligent sensor and measurement technology
- Digitalization and digital transformation
- Safety and security
- Automotive
- Automation
- Electronic systems
- Your sector
Your Benefit – Offers and Services in Our Network

We support our members in operational and strategic issues. The source of all activities and services have always been the needs of our members, which we learn about by close contact and exchange. Long-term cooperations are the basis of our joint success.

**NETWORKING**
- We shorten your distance to experts and provide a basis for new cooperations
- Exchange between business, science and politics
- Forums, practical meetings and expert circles

**MARKETING**
- We report on your activities
- Increase visibility – long-term press and public relations work
- Joint trade fair appearances, events and lobbying

**TECHNOLOGY DEVELOPMENT**
- Initiate cooperation: consulting and networking
- Realize ideas – we support you in finding appropriate funding
- Joint development of sensor systems, from industrial internet of things (IIoT), big data, blockchain to bionics

**ORGANIZATIONAL AND PERSONNEL DEVELOPMENT**
- Identify trends – develop strategies
- Practical qualification: trainings, seminars and extra-occupational courses
- Personnel marketing
In order to continuously expand our competence spectrum, we are happy to complement our network with new partners from business and science. Any organization related to future technologies can become a member.

At the Regensburg office, an experienced, interdisciplinary network team and technology experts work together: Our wholly owned subsidiary, Sensorik-Bayern GmbH, provides support for technological issues as a development service provider, research partner or project coordinator.

You want to learn more about our activities and benefit from our offers? We look forward to a personal exchange – please feel free to contact us!
